

Youth in One / LimeLight (June-December 2017)

The two Turkish volunteers **Doğukan** in **Nazlı** were hosted in Maribor for 6 months in the frameworks of projects LimeLight and Youth in One. Both gained communication skills, improved their knowledge of English and practiced video shooting.

The volunteers Nazli and Doğukan during the Creative Workshops (on the left)

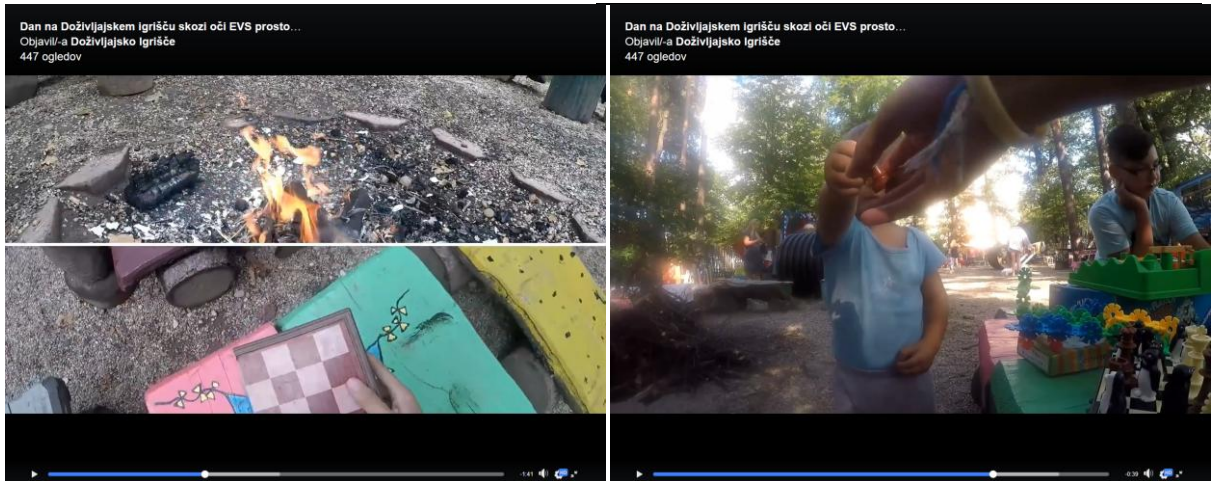

Nazli, 25-years old, studied journalism. During her EVS project Youth in One she planned to improve her English language knowledge and media competencies. At the Adventure Playground, she was organising the program of the Creative Corner. She trained her body language skills to explain the instructions for creating products. With improving her English, she also taught basic phrases in English to the children. After the project was finished, she wished to find employment in television and discovered a special interest in creating the children's programme.

26-year old Doğukan is a graphic designer. During the project LimeLight he was responsible for the Fire Corner at the Adventure Playground, teaching the children play chess and other board games and sometimes cooking with the kids. He was improving English, designing flyers and posters for the activities at the playground and also learned video editing during the project.

Examples of project results:

Scenes from the video *En dan na doživljajskem igrišču* (authors: Doğukan Hançer and Nazlı Çelik)
